To Whom It May Concern.

I have dealt with the management of Guardian Securities Ltd on different levels and times , and have found their integrity and professionalism beyond doubt, and can therefore recommend them to anyone who needs expert advice on financial investments, as I have had at various times invested capital on their recommendation ,and found that the initial presentation , the handling of the investments and settlements, always exceeded my expectations.

I , therefore, will make use of their professional services in the future , and recommend Guardian Securities to anyone who needs to secure a solid investment .

Yours faithfully ,

Dan Retief
